COTTON MARKET STRONG ON BULLISH NEWS

(By Associated Press.) NEW YORK, Dec. 17.-Liverpool cables were up to-day, owing to a scare of

shorts and aggressive bull tactics, and this caused the New York cotton market this caused the New York cotton market to shake off the lethargy recently noted. I'list prices were at an advance of 17 to 27 points. January sold at 12-40, March at 12-70, May at 12-50, and July at 12-71, those being new high records for the two last portions and net gains on the active months of 2102-9 points. Liverpool houses bought here as well as in their home market and commission house, though in many cases seiling for profits, also had orders on the buying side. Of course, the gains, particularly in reference to the latter positions, which had classed all previous records, brought out heavy realizing, and shortly after the call these months reacted from the highest, but, generally speaking, the market ruled very strong.

All day the market continued very strong. There was more or less irregularly and trading was not so active as has frequently been the case. The market was flooded with bullish news from the South. The highest point was reached in the afternoon, when January sold at 12-59, March 12-80, May 12-80 and July 12-83, these being net gains of 35 to 49 points. The market closed firm, not 25 to 44 points higher, with salve estimated at 1,000,000 bales. to shake off the lethargy recently noted.
